LOVE & DUTY

CANADIAN RED CROSS WOMEN IN WWII

The women relive the drama of being rescued from torpedoed convoy ships, enduring daily bombing during the London Blitz, caring for severely-wounded soldiers, driving 3-ton ambulances down unmarked roads in wartime conditions, and working in the field behind the front lines. They also laugh as they describe the excitement and romance of wartime London, their first visit to a British pub, their first taste of champagne, and the never-to-be-forgotten exhilaration of VE Day.

LOVE & DUTY is at once a historical record of women and war, and a timeless story about love and sacrifice.
